Overview

*This course is offered in two modes: either face to face (on-campus) and fully online.*

This course will introduce students to the public health and health care systems. Topics include: the history of public health, core functions of public health; surveillance and measurement of population health; principles of communicable and non-communicable disease control; social determinants of health; indigenous health; public health advocacy and evidence based public health; and an introduction to the Australian and other major health care systems.
