Overview

The course introduces students to various programming and scheduling techniques suitable for planning of long, medium and short-term projects and tasks at operational level. The course content provides the means for planning of both business as well as personal tasks. In particular, the students will develop skills to create a schedule of tasks and activities related to the construction of a building or other structures, to allocate appropriate resources to such construction activities, and to develop schedules of construction activities within the most optimum time and cost. The course is structured around lectures, computer laboratory and online sessions.

**DISCLAIMER**

Please note that the University reserves the right to vary student fees in line with relevant legislation. This fee information is provided as a guide and more specific information about fees, including fee policy, can be found on the [fee website](#).

For advice about fees for courses with a fee displayed as "Not Applicable", including some Work Experience and UNSW Canberra at ADFA courses, please contact the relevant Faculty. Fees for courses delivered through [UNSW Global](#) are published and charged by UNSW Global and thus appear as "Not Applicable" on this site.

Where a Commonwealth Supported Students fee is displayed, it does not guarantee such places are available.
