Overview

Most engineering work fits within what is broadly referred to as operations and projects. For example an earthmoving operation may involve trucks cycling between an excavator and some dump point; an engineering project may involve the design, construction and commissioning of infrastructure. Operations tend to be ongoing but can be time limited, while projects have a defined time frame. The course will cover issues to do with resources (materials, equipment, people), cost and time in engineering operations and on engineering projects. Examples will be chosen to highlight efficient practices and methods adopted in engineering operations and on engineering projects.

Fees

**Commonwealth Supported Students** $1191  
**Domestic Students** $4470  
**International Students** $5910

**DISCLAIMER**
Please note that the University reserves the right to vary student fees in line with relevant legislation. This fee information is provided as a guide and more specific information about fees, including fee policy, can be found on the [fee website](#).

For advice about fees for courses with a fee displayed as "Not Applicable", including some Work Experience and UNSW Canberra at ADFA courses, please contact the relevant Faculty. Fees for courses delivered through [UNSW Global](#) are published and charged by UNSW Global and thus appear as "Not Applicable" on this site.

Where a Commonwealth Supported Students fee is displayed, it does not guarantee such places are available.
