Overview

Entrepreneurship from the Inside makes extensive use of experiential learning and uses an immersive experience in a startup enterprise to provide a unique learning environment for the student.

The course provides an opportunity to synthesise and apply learnings from other core business disciplines taught within the MBA program, including marketing, finance, strategy and organisational behaviour.

Participants will work on either their own business ideas or within real enterprises.

Students who have a venture they wish to launch or one they are associated with are also encouraged to use this course as a vehicle to progress their opportunity. The course is also suitable for students who are about to embark on a corporate career and wish to understand how to preserve their entrepreneurial flair within the corporation.
