Overview

This course provides a theoretically grounded introduction to the evolution of a global economy. It pays particular attention to examining the drivers, dimensions and dynamics of economic globalisation, and to analysing the implications of this complex process for the distribution of wealth and power in the international system. The course contributes to an enhanced understanding of the relationship between the political and economic spheres of social life, and of why this understanding is important.

DISCLAIMER
Please note that the University reserves the right to vary student fees in line with relevant legislation. This fee information is provided as a guide and more specific information about fees, including fee policy, can be found on the fee website.

For advice about fees for courses with a fee displayed as "Not Applicable", including some Work Experience and UNSW Canberra at ADFA courses, please contact the relevant Faculty. Fees for courses delivered through UNSW Global are published and charged by UNSW Global and thus appear as "Not Applicable" on this site.

Where a Commonwealth Supported Students fee is displayed, it does not guarantee such places are available.
