Overview

This discipline has programs that teach students advanced technical and management skills and provide essential specialist knowledge in chemical engineering across a range of areas, including the fuel and energy sector, mineral processing, fine chemicals, pharmaceuticals, petrochemicals, consumer products and the food industry.

The specialisation in Chemical Engineering is defined by a core of disciplinary knowledge, advanced disciplinary knowledge and an advanced research component. It provides a solid postgraduate coursework program for the professional chemical engineer wishing to upgrade their skills or extend their knowledge.

ENTRY REQUIREMENTS

Masters Students need a recognised four year Bachelor degree in engineering in one of the following:

- Chemical Engineering
- Food Science and Engineering

Biomedical Engineering degrees may also be considered.

For entry details, please click here.
**Faculty**
Faculty of Engineering

**School**
School of Chemical Engineering

**Study Level**
Postgraduate

**Minimum Units of Credit**
96

**Specialisation Type**
Specialisation
Available in Program(s)

Program(s) in which this specialisation is available

Master of Engineering Science - MEngSc

8338 Engineering Science

Faculty: Faculty of Engineering
Campus: Kensington
Units of Credit: 96
Typical Duration: 2 Years
Specialisation Structure

Students must complete 96 UOC.

Advanced Disciplinary Knowledge Core Courses

Students must take 18 UOC of the following courses.

- CEIC6711  |  6 UOC
  Complex Fluids Microstructure and Rheology

- CEIC8102  |  6 UOC
  Advanced Process Control

- CEIC8105  |  6 UOC
  Advanced Polymer Science and Research

Disciplinary Knowledge Core Course

Students must take 6 UOC of the following courses.

- CEIC8104  |  6 UOC
  Topics in Polymer Technology

Research Core Courses

Students must take 24 UOC of the following courses.

- CEIC9951  |  6 UOC
  Advanced Research Thesis A

- CEIC9952  |  6 UOC
  Advanced Research Thesis B

- CEIC9953  |  6 UOC
  Advanced Research Thesis C

One of the following:

- GSOE9010  |  6 UOC
Advanced Disciplinary Knowledge Courses

Students must take at least 6 UOC, up to a maximum of 36 UOC of the following courses.

CVEN9701  6 UOC
Engineering Economics and Financial Management

CVEN9731  6 UOC
Project Management Framework

CVEN9888  6 UOC
Environmental Management

CVEN9892  6 UOC
Sustainability Assessment and Risk Analysis

GSOE9017  6 UOC
Managing Energy Efficiency

GSOE9121  6 UOC
Operational Energy Efficiency

GSOE9143  6 UOC
Sustainable Electrical Energy Technology Assessment

GSOE9210  6 UOC
Engineering Decision Structures

GSOE9340  6 UOC
Life Cycle Engineering
Disciplinary Knowledge Courses

Students must take at least 18 UOC, up to a maximum of 24 UOC of the following courses.

CEIC8204 | 6 UOC
Topics in Business Management in Chemical Engineering

CEIC8205 | 6 UOC
Fuel and Energy Engineering

CEIC8330 | 6 UOC
Process Engineering in the Petroleum Industry

CEIC8341 | 6 UOC
Membrane Processes

CHEN6701 | 6 UOC
Advanced Reaction Engineering

CHEN6703 | 6 UOC
Advanced Particle Systems Engineering

CHEN6706 | 6 UOC
Advanced Transport Phenomena

**Electives**

Student complete a maximum 24 UOC of electives.
Students may choose the remainder of the electives from the Disciplinary or Advanced Disciplinary Knowledge course lists, or with the approval of the stream authority, other courses.
Students may only choose electives for which they are appropriately prepared by way of prior learning.
Up to 12 UOC of foundation knowledge courses may be approved as electives by the Program Authority where appropriate.

**Enrolment Disclaimer**

Unless advised otherwise by your program authority, you should follow the rules for the handbook for the year you commenced your program. You are also responsible for ensuring you enrol in courses according to your program requirements. myUNSW enrolment checks that you have met enrolment requirements such as pre-requisites for individual courses but not that a course will count towards your program requirements.
Additional Information

Exemptions or Advanced Standing

Exemptions and advanced standing rules for the stream follow the program rules. A student may apply for exemptions. Students with a four year honours degree (for example in Chemical Engineering) can obtain a maximum of 48 UOC of exemptions. Full details are noted on the program handbook page.
