Aerospace Design Project B

AERO4120  |  6 Units of Credit

Overview

Only students that have satisfactorily completed the current Aerospace Design Project A are eligible for this course. The same teams continue with their design study and produce a team report, they also give a presentation to leading engineers from the industry representing design organizations, manufacturing, maintenance the airlines and regulators. Each student also produces a portfolio of individual work at the end of the course along with an appraisal of the design, team and individual team members. The expert lectures continue during this course.
