Overview

This course covers the musculoskeletal anatomy of the human trunk, lower limb and upper limb in relation to its function in movement. Anatomical principles are studied in relation to the analysis and description of movement. The course includes study of the functional aspects of muscles and joints, and consideration of the mechanical properties of tissues. Laboratory classes involve study of prosected specimens, X-rays and surface anatomy.

Fees

Commonwealth Supported Students $1395
Domestic Students $6060
International Students $6060

DISCLAIMER
Please note that the University reserves the right to vary student fees in line with relevant legislation. This fee information is provided as a guide and more specific information about fees, including fee policy, can be found on the fee website.

For advice about fees for courses with a fee displayed as "Not Applicable", including some Work Experience and UNSW Canberra at ADFA courses, please contact the relevant Faculty. Fees for courses delivered through UNSW Global are published and charged by UNSW Global and thus appear as "Not Applicable" on this site.

Where a Commonwealth Supported Students fee is displayed, it does not guarantee such places are available.
