Overview

Short theoretical or experimental research project, supervised by a member of academic staff. The research project may encompass project planning, literature review, project development, fieldwork, experimental work, statistical analyses and oral and written reporting. Projects may also involve ‘placements’ outside UNSW, in the form of externally funded research programs, industrial placements or other programs either during usual session or in the session breaks. In these cases students will require an academic member of staff to supervise the internship. **Note: This course is restricted to students undertaking a Major in the School of BEES. Enrolment in this course is by invitation and subject to availability of places: interested students should contact a suitable supervisor and the Director of Teaching.**
**Faculty**
Faculty of Science

**School**
School of Biological, Earth and Environmental Sciences

**Study Level**
Undergraduate

**Offering Terms**
Term 1, Term 2, Term 3

**Campus**
Kensington

**Delivery Mode**
