Overview

This is the capstone course for the Data Science and Decisions program. The course will bring students in the three streams together to share their knowledge, expertise and training in a way that is typical of industry. Students will attend seminars by industry representatives from Data Science industries, and students will work on group projects related to real world industry problems. Typical groups will be composed of students across the three different streams of the Data Science and Decisions program. The course will expose students to Data Science as it is practiced in industry.

**Assumed knowledge:** students are assumed to have completed all level I and level II courses in the 3959 program before enrolling in this course.
