Overview

Why are Australians among the world's worst per capita greenhouse gas polluters? What has Australia done to reduce its contribution to global climate change compared to other nations, such as the US, UK and Germany? What are the major obstacles to be overcome before Australia can make deep cuts in greenhouse emissions, particularly from energy generation?

Exploring these and other key issues, Peak Carbon will give students a greater insight into one of the most important policy challenges confronting Australia and the world today.

**DISCLAIMER**

Please note that the University reserves the right to vary student fees in line with relevant legislation. This fee information is provided as a guide and more specific information about fees, including fee policy, can be found on the fee website.

For advice about fees for courses with a fee displayed as "Not Applicable", including some Work Experience and UNSW Canberra at ADFA courses, please contact the relevant Faculty. Fees for courses delivered through **UNSW Global** are published and charged by UNSW Global and thus appear as "Not Applicable" on this site.

Where a Commonwealth Supported Students fee is displayed, it does not guarantee such places are available.
