Overview

SDES1111 Integrated Design Computing 1 introduces students to the fundamentals of design computing for image processing and drawing. The course begins with 2D computing, including co-ordinate systems, basic coding and the introduction to commercial software applications. This lays a foundation for students to integrate manual and digital design knowledge and skills. In this course students will learn to explore, select and apply appropriate computing tools, processes and formats to the creative research, visualisation, manipulation, specification and presentation of original design ideas in a professional manner.

Fees

**Commonwealth Supported Students** $836
**Domestic Students** $4680
**International Students** $4680

**DISCLAIMER**
Please note that the University reserves the right to vary student fees in line with relevant legislation. This fee information is provided as a guide and more specific information about fees, including fee policy, can be found on the fee website.

For advice about fees for courses with a fee displayed as "Not Applicable", including some Work Experience and UNSW Canberra at ADFA courses, please contact the relevant Faculty. Fees for courses delivered through UNSW Global are published and charged by UNSW Global and thus appear as "Not Applicable" on this site.

Where a Commonwealth Supported Students fee is displayed, it does not guarantee such places are available.
