Double Degree

Economics / Computer Science
3673  |  192 Units of Credit

Overview

This program allows students to study a double degree in both Economics and Computer Science. There are practical applications in combining such majors as Econometrics with the discipline of computer science. This program has an extensive range of majors in both economics (3) and computer science (8). An honours year in economics or computer science is possible for high-achieving students following completion of this program.
