Mechanical Engineering

MECHAH

The Mechanical Engineering stream provides a versatile, comprehensive coverage of areas involving the conception and design of machinery and mechanical plant, the supervision of its construction, operation and maintenance, the planning and supervision of large engineering projects, and general engineering management. Due to its wide range, a number of options are provided as Technical Elective courses in the final year. These are preferentially linked to provide a direction appropriate to the needs of Australian industry and to the specific interests of students, although some flexibility is available if required. Typical fields which may be encompassed by the program include building services, computer-aided design, power generation, energy and environmental systems, gas and liquid handling, biomechanics, materials handling, control systems and transport. An emphasis is placed on the application of engineering science, development and management in these fields.

**Level 1 Electives - Chemistry options**

Students without any prior Chemistry should choose CHEM1001. Other students with HSC Chemistry who wish to study Chemistry in more depth should choose CHEM1011.

**Research Thesis Rule**

- Research thesis is optional to all Undergraduate students.

- Student must seek a primary supervisor from the School of Mechanical and Manufacturing Engineering, UNSW.

- MMAN4951, MMAN4952 and MMAN4953 must be undertaken in three consecutive terms which are the final three terms of candidature.

- A student must not enrol in more than a standard full-time load involving MMAN4951, MMAN4952 and MMAN4953.

- A single thesis project is commenced in MMAN4951, proceed to MMAN4952, and completed in MMAN4953.

- MMAN4951, MMAN4952, MMAN4953 are graded courses. MMAN4951 carries 10% of the total thesis mark, MMAN4952 carries 20% of the total thesis mark, MMAN4953 carries 70% of the total thesis mark (for Honours weighting purposes).

- If a student receives a failure (FL) in MMAN4951, MMAN4952, or MMAN4953 a student cannot proceed to the next Research Thesis course and must reattempt MMAN4951, or discontinue Research Thesis.
Practical/Industry-based Thesis Rule

• Practical/Industry-based Thesis is compulsory to all Undergraduate students who do not wish to conduct Research Thesis.

• MMAN4010, MMAN4020 must be undertaken in two consecutive terms which are the final two terms of candidature.

• A student must not enrol in more than a standard full-time load involving MMAN4010 and MMAN4020.

• A single thesis project is commenced in MMAN4010 and completed in MMAN4020.

• MMAN4010 and MMAN4020 are graded course, MMAN4010 carries 25% of the total thesis mark, and MMAN4020 carries 75% of the total thesis mark (for Honours weighting purposes).

• If a student receives a failure (FL) in MMAN4010, a student cannot proceed with MMAN4020, and must reattempt MMAN4010.

• If the project is abandoned during MMAN4010 or MMAN4020, a completely new topic and project team must be chosen and the student must enrol again in both MMAN4010 and MMAN4020.
Unless advised otherwise by your program authority, you should follow the rules for the handbook for the year you commenced your program. You are also responsible for ensuring you enrol in courses according to your program requirements. myUNSW enrolment checks that you have met enrolment requirements such as pre-requisites for individual courses but not that a course will count towards your program requirements.
Additional Information

Thesis Arrangements

- MMAN4010 and MMAN4020 must be undertaken in two consecutive semesters which are the final two semesters of candidature.
- A student must not be enrolled in more than 24 units of credit in any semester involving MMAN4010 and MMAN4020.
- A single thesis project is commenced in MMAN4010 and completed in MMAN4020. MMAN4020 carries the mark for the thesis project.
- MMAN4010 is a graded course, carrying 25% of the total thesis mark (for Honours weighting purposes). If a student receives a failure (FL) in MMAN4010, a student cannot proceed with MMAN4020, and must reattempt MMAN4010.
- If the project is abandoned during MMAN4020, or if MMAN4020 is failed, a completely new topic must be chosen and the student must enrol again in both MMAN4010 and MMAN4020. (For BE/MBiomedE students, read BIOM5001 instead of MMAN4010 and BIOM5003 instead of MMAN4020).
