Faculty of Arts and Social Sciences

School
School of Humanities and Languages

Study Level
Undergraduate

Minimum Units of Credit
48

Specialisation Type
Honours
Learning Outcomes

1. Advanced communication skills
2. Demonstrate an advanced understanding of different approaches to environmental problem-solving from across the humanities and social sciences, and an appreciation of the relationship of those approaches to the work of the sciences and engineering in the environmental field
3. Display skill in applying specific research techniques to the analysis and resolution of environmental controversies, issues and problems
4. Demonstrate insight regarding the solution to methodological and theoretical problems raised by approaching environmental concerns through both disciplinary and interdisciplinary frameworks
5. Demonstrate a detailed understanding of and insight into a specific research topic
6. Display scholarly independence, initiative, responsibility and integrity
7. Demonstrate accountability for individual learning and practice, and skills in scholarly collaboration
8. Design and conduct a research project encompassing and displaying all the above
