Overview

The major in Advanced Statistics has been designed to ensure that graduates are well trained in three key areas: probability and stochastic processes, statistical inference and modelling, and modern statistical computing methods. Third year electives allow students to further develop their statistical capabilities according to their own interests. Computing has become firmly entrenched in modern Statistics and our courses take full advantage of our excellent computing facilities. This will only enhance the portfolio of skills that students bring to their career.
Faculty
Faculty of Science

School
School of Mathematics & Statistics

Study Level
Undergraduate

Minimum Units of Credit
90

Specialisation Type
Major
Available in Program(s)

Program(s) in which this major is available

Bachelor of Science (Advanced Mathematics) (Honours) - BSc(AdvMath)(Hons)

3956 Advanced Mathematics (Honours)

Faculty: Faculty of Science
Campus: Kensington
Units of Credit: 192
Typical Duration: 4 Years
Specialisation Structure

Students must complete 84 UOC.

Level 1 Core Courses

Students must take 18 UOC of the following courses.

MATH1081  |  6 UOC
Discrete Mathematics

MATH1141  |  6 UOC
Higher Mathematics 1A

MATH1241  |  6 UOC
Higher Mathematics 1B

Level 2 Core Courses

Students must take 30 UOC of the following courses.

MATH2111  |  6 UOC
Higher Several Variable Calculus

MATH2601  |  6 UOC
Higher Linear Algebra

MATH2901  |  6 UOC
Higher Theory of Statistics

MATH2931  |  6 UOC
Higher Linear Models

One of the following:

MATH2221  |  6 UOC
Higher Theory and Applications of Differential Equations
Level 3 Core Courses

Students must take 24 UOC of the following courses.

MATH3821 | 6 UOC
Statistical Modelling and Computing

MATH3901 | 6 UOC
Higher Probability and Stochastic Processes

MATH3911 | 6 UOC
Higher Statistical Inference

One of the following:
MATH3831 | 6 UOC
Statistical Methods in Social and Market Research

MATH3841 | 6 UOC
Statistical Analysis of Dependent Data

MATH3851 | 6 UOC
Experimental Design and Categorical Data

MATH3871 | 6 UOC
Bayesian Inference and Computation

Level 3 Prescribed Electives

Students must take 6UOC of prescribed electives. These electives must be chosen with the approval of the Head of School or nominee.

any level 3 Mathematics course

Level 1 Computer Science Elective
Students must take at least 6 UOC of the following courses.

any level 1 Computer Science course

---

**ENGG1811 | 6 UOC**
Computing for Engineers

---

**Enrolment Disclaimer**

Unless advised otherwise by your program authority, you should follow the rules for the handbook for the year you commenced your program. You are also responsible for ensuring you enrol in courses according to your program requirements. myUNSW enrolment checks that you have met enrolment requirements such as pre-requisites for individual courses but not that a course will count towards your program requirements.
Additional Information

Honours

Students completing a major in Advanced Statistics may be eligible to undertake Honours in Applied Mathematics, Pure Mathematics, or Statistics.

Please consult with staff from the School of Mathematics and Statistics.
