

Course

Current Developments in Auditing Research

ACCT5909

6 Units of Credit

Overview

Current Developments in Auditing Research is designed to extend disciplinary perspectives in auditing and provide training for research in auditing and assurance services. The course focuses on current areas of research in auditing and related assurance services. The following topics will be covered: some of the main empirical and theoretical developments in auditing research; the main research methods used in auditing research; alternative research methods; the practical implications of current research in auditing; the relationship of research to practice and standard-setting, and statistical tools to use in audit research.
