

Course

# Psychological Assessment, Ethics, and Professional Skills

PSYC5010

6 Units of Credit

## Overview

Psychological assessment and testing are a critical component in the practice and research of psychology. This course will provide an overview of the design and implementation for a range of psychological assessments and tools. The course will allow students to critically evaluate the use of assessment tools in psychological research and practice. The course will further explore the importance of ethics in research and clinical practice. Students will have the opportunity to develop basic professional skills required for further study and practice in the field of psychology.
