Overview

The Graduate Diploma of Food Science program is designed for graduates from cognate disciplines wishing to develop their knowledge and skills in Food Science. This will enable students to meet or maintain professional accreditation standards and to provide opportunities for developing their career opportunities. Students will develop their technical knowledge and ability to analyse food science problems. They will also gain further skills in solving food science problems and justifying professional decisions.

The program is designed to enable students to fulfil a number of needs including:

- Updating technical knowledge and skills in an existing engineering specialisation
- Acquiring new knowledge and skills in a different engineering specialisation
- Developing and expanding knowledge and skills in engineering management
- Updating qualifications and knowledge to meet or maintain professional accreditation standards
- Providing opportunities for continuing professional development
- Providing opportunities for interaction with those at the cutting edge of the discipline
- Providing a pathway towards the Master's program.
