

Reproductive Medicine

9065 | 48 Units of Credit

Overview

Reproductive medicine is an expanding field. It is at the forefront of emerging medico-scientific technology offering hope to many needy couples, and career opportunities to those with demonstrable skills and knowledge. Increasing numbers of medical practitioners are developing special interests in this area - particularly GPs, family planning practitioners and specialist gynaecologists working in menopause and infertility. In addition there are similar specialisations emerging in nursing and counselling, and amongst biological scientists. This program offers an entirely web-based alternative where practitioners are able to integrate their study program into their daily professional life without the costly disruption a face-to-face coursework entails.

The program will provide a more detailed knowledge of reproductive medicine and a qualification that will clearly demonstrate their expertise.

Program Structure

Students must complete 48 UOC as a standalone program.

1. Compulsory courses - 6 UOC
2. Prescribed elective courses - 42UOC

Core Course

Students must take 6 UOC of the following courses.

This course is a mandatory element of this program.

SWCH9001 | 6 UOC

Basic Reproductive Physiology

Prescribed Electives

Students must take 42 UOC of the following courses.

Note: SWCH9001 Basic Reproductive Physiology must be completed before undertaking clinical courses SWCH9003, SWCH90044 & SWCH9005.

Note: Students may undertake up to 12 UOC in courses from outside the School, with approval from the Program Coordinator.

SWCH9002 | 6 UOC

Contraception

SWCH9003 | 6 UOC

Clinical Reproductive Endocrinology

SWCH9004 | 6 UOC

Clinical Reproductive Medicine 1

SWCH9005 | 6 UOC

Clinical Reproductive Medicine 2

SWCH9006 | 6 UOC

Laboratory Aspects of ART

SWCH9007 | 6 UOC

Menopause

SWCH9009 | 6 UOC

Ethics and Law In Reproductive Medicine

SWCH9011 | 6 UOC

Reproductive, Perinatal Epidemiology and Biostatistics

SWCH9012 | 6 UOC

The Impact of Infections on Reproductive Health

SWCH9019 | 6 UOC

Research Project in Reproductive or Women's Health

Enrolment Disclaimer

Unless advised otherwise by your program authority, you should follow the rules for the handbook for the year you commenced your program. You are also responsible for ensuring you enrol in courses according to your program requirements. myUNSW enrolment checks that you have met enrolment requirements such as pre-requisites for individual courses but not that a course will count towards your program requirements.
