Overview

REGZ9070 University Preparation Program Mathematics Skills 1 is designed to provide a level of competency in mathematics for students who have not studied HSC Mathematics (or equivalent) at high school and who are enrolled in either the Science or Engineering components of the University Preparation Program (UPP). Students would normally have studied Year 10 Mathematics. Successful completion of this course followed by REGZ9072 should enable students to undertake university level programs that require an equivalent of NSW HSC 2 unit mathematics.

A student who attains a distinction grade or above in the course may be exempted from enrolling in REGZ9072 and permitted to select an elective from a prescribed list in Semester 2 if enrolled in Science (REGZB1) or enrol in MATH1011 Fundamentals of Mathematics B if enrolled in Engineering (REGZC1).
